This high quality cube set includes samples of five metals: Aluminium, Brass, Copper, Iron, Lead. Each cube measures 25 mm³.

SERLB1210-001 25 mm³ - Set of 5

\$39.45

**Density Investigation Cubes**

Explore the difference in density between different materials. These cubes measure 2 x 2 x 2cm. This set of 6 cubes, consists of one of each: brass, lead, zinc, copper, aluminium, and iron

EIS0108H 20 mm³ - Set of 6

\$54.95

**Density Cubes**

This set 10 density cubes includes aluminium, copper, nylon, PVC, steel, acrylic, pine, brass, oak and poplar cubes. All measuring 25 mm³.

SER1055047 2.5 cm³ - Set of 10

\$39.95

**Density Equal Mass**

Show the inverse relationship between density and length for cylinders of the same mass and diameter. Set of 5 includes: PVC, brass, polyethylene, aluminium and nylon specimens. Each is 12 mm in diameter, but of varying length.

SER1055046 Set of 5

\$19.95

Hofmann Voltmeters & Electrodes

**Galvanic Cell Kit – Student Type**

The polypropylene cell has a low profile and wide base porous cup.
Includes: 1x Copper, 2x Zinc, 1x Iron, 1x Nickel, 1x Aluminium, 1x Carbon.
Instructions included. Diameter: 100mm (approx.) Height: 110mm.

SER1055015

\$71.45

only at
MTA**Electrodes**

Basic electrodes with terminals attached, varying metals available.

SER1010551	75 x 25 x 1.5 mm- Copper	\$11.85
SER1010553	75 x 25 x 1.5 mm- Iron	\$6.95

**Hofmann Voltmeter with Platinum Electrodes**

This new model of Hofmann Voltmeter is plastic and stainless steel.
The materials are suitable for weak electrolyte that is required to make water conductive.

SER1102001

\$289.95

**Hofmann Voltmeter - Acrylic Platinum Electrode**

This Hofmann voltmeter was designed purposely for educational applications. Being made from acrylic is much harder to break than the typical voltmeter.

SER1035868

\$299.95

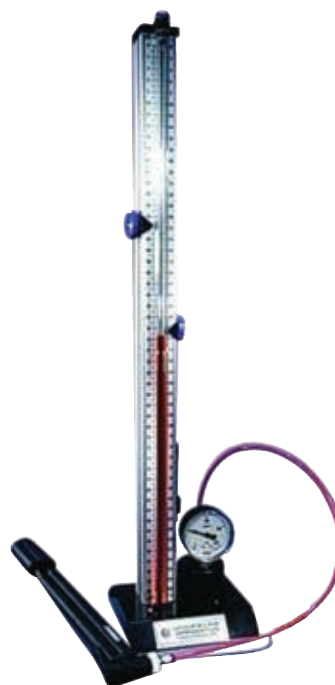

Boyle's Law - Gas Laws Demonstration

Use this apparatus to demonstrate Boyle's law, which states that the pressure of a given mass of an ideal gas is inversely proportional to its volume at a constant temperature.

SER1052944

\$172.95

Boyle's Law - High Pressure

This apparatus is designed for demonstrating Boyle's law to a whole classroom. The apparatus shows that for an ideal gas at constant temperature, the product of its pressure and volume is always constant.

SER1055138

\$319.95

Kipp's Gas Generator

These Glass Kipp's Gas generators are designed for the easy preparation of small volumes of gases using a solid material that is insoluble in a chosen acid.

SER1052031 1000 ml

\$199.95

Gas Syringes

High quality glass gas syringes are available in a new range of sizes. All come with clear graduations marked on the syringe.

Chemistry Resources

Atom Model

This hands-on atom model is the perfect introduction to chemistry and allows students to build and explore the structure of atoms including electron shells, valence electrons etc.

SERATM13

\$75.45

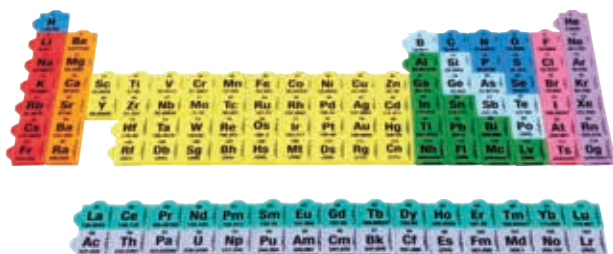

Half Life Analogue

This set is a great way to safely explore radiation decay. Each set includes 1 bowls and 500 small plastic cubes, each with one coloured face. Enough resources for 10 groups - shake the set of nuclei, roll them onto the bench, remove the "decayed" nuclei. This provides an exponential decay curve students can study.

EISHALF

\$92.95

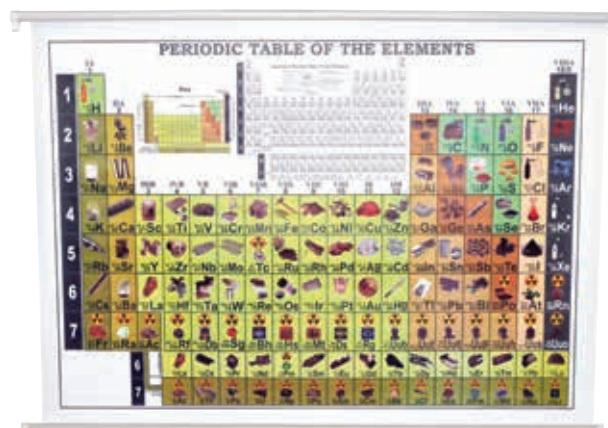

Connecting Colour Tiles Periodic Table

Each tile measures 2.5 x 2.5 cm, and includes the Atomic Number, Atomic Symbol, Atomic Weight, and the ring Electron Configuration for each element. The set comes with 163 tiles, 118 tiles are used to make the full Periodic Table puzzle; and then there are an additional 45 tiles.

LER90634

\$52.45

Periodic Table of Elements Chart

Printed on polyart plastic sheet, coloured, fitted with plastic roller. Showing 112 elements with pictures in multicolour. Size 75 x 100 cm.

EIS0597A

\$39.45

Chemistry Resources

**Sticky Atoms Magnetic Modelling Kit**

Magnetic, easy to use version of standard molecular kits. StickyAtom's pre-attached bond links dynamically join atom models together in an instant. No more lost links, no more sore hands, no more stuck pieces!

SER1052869

\$86.45

**Atomic & Molecular Model - Large Set**

Kit contents: 8 Carbon, 15 Hydrogen, 4 Nitrogen, 6 Oxygen, 2 Sulphur, 1 Phosphorous, 6 Halogen, 8 metal (4 different types), 1 sp³, 1 dsp³, 1 d²sp³, 30 medium links, 12 long flexible links, 1 instruction leaflet.

EIS00604

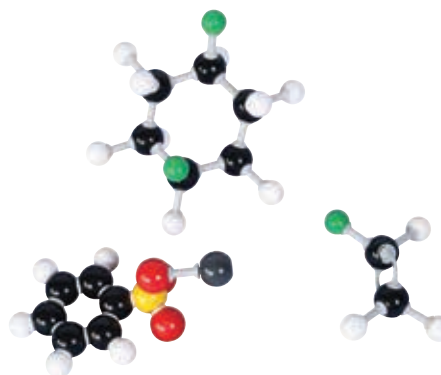

\$75.45

**MolecModels3D - Organic Inorganic Student Set**

The set includes hydrogen, boron, oxygen, carbon, chlorine, nitrogen, sulphur, phosphorous and general metal atoms. The set contains 37 links, link remover tool and an instruction sheet.

SER1021009

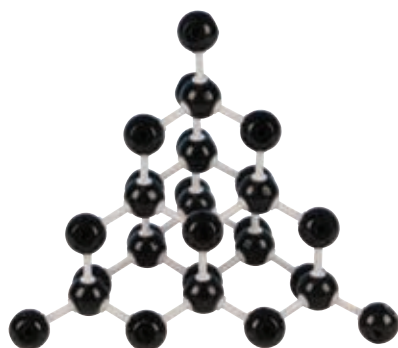

\$56.95

**MolecModels3D - Organic Student Set**

This set includes hydrogen, carbon, oxygen, nitrogen, sulphur, phosphorous and general metal atoms. The set contains 64 links, link remover tool and an instruction sheet.

SER1021008

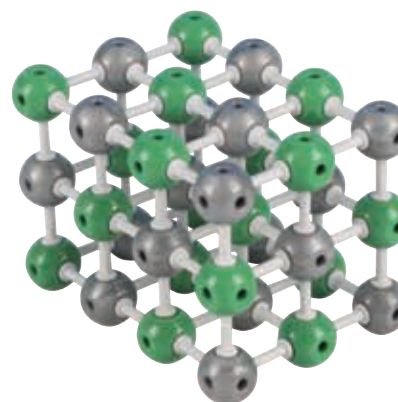

\$54.95

**MolecModels3D - Diamond Crystal Kit**

This kit comes with all the pieces you need to build a 3D model of a diamond crystal. Let your students explore molecular chemistry with this hands-on activity! Kit includes storage box, and instructions for assembly.

SER1021015

\$42.95

**MolecModels3D - Sodium Chloride**

The set includes chlorine, general metal atoms and links. The set also comes with link remover tool and an instruction sheet.

SER1021012

Garage Physics Magic Blocks Kit

This set includes 9 rectangular blocks, instructions and labels, suitable for all ages of students. Investigate numbers, addition and subtraction, units of measure, the magic square, arithmetic sequences, and more!

EIS00005 **\$30.95**

Garage Physics Pythagorean Theorem Puzzle Kit

This puzzle kit comes with seven pieces and an instruction guide, suitable for students of various ages. Explore different proofs of the Pythagorean Theorem, including the basic proof, President Garfield's proof, and Einstein's proof.

EIS00004 **\$22.95**

Garage Physics Spiral of Theodorus Kit

This set includes 18 wooden triangles, as well as instructions and labels. Suitable for students of varying ages - explore triangles and ramps, and then explore Theodorus' spiral, Pythagorean theorem and square roots, non-square integer roots, approximating the number pi.

EIS00006 **\$30.95**

Garage Physics

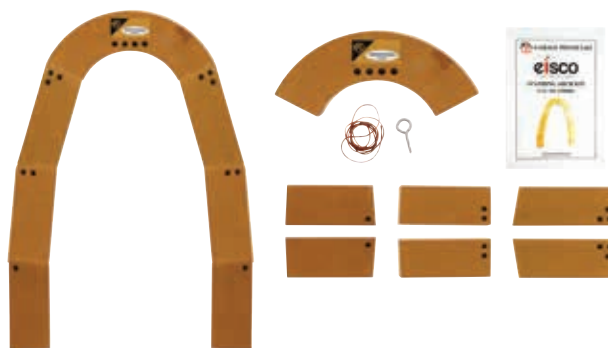

Garage Physics Trigonometry Exploration Puzzle Set

This set comes with various pieces including the unit circle, three 30-60-90 triangles, two 45-45-90 triangles, two circular sectors, and Kepler's triangle. Comes with instructions to teach students about Sine, Cosine, Tangent; the definition of the radian unit of angular measurement; and the approximation of Pi.

EIS00011

\$30.95

Garage Physics Catenary Standing Arch Kit

Explore catenary physics, force balancing and load transferring, and learn about basic architecture. Instructions are included to help guide students as they learn about the the mathematical equation describing the curve.

EIS00001

\$25.95

Garage Physics Torque Demonstration

This kit includes 1000 g mass set, 2 dowels, a custom washer, 2 bolts, 2 nuts, steel ball, and complete instructions. Students can physically increase the torque by moving the mass down one dowel, while trying to balance the main rod.

EIS00002

\$30.95

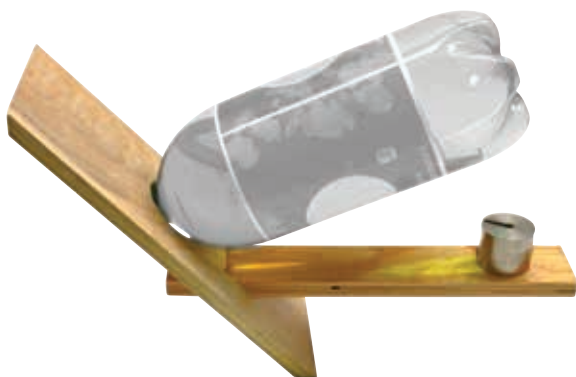

Garage Physics Center of Mass Kit

This kit includes a slotted mass set, protractor, 3x durable rubber bands, 2x engineering balancing boards, and complete instructions. Test theories on the centre of mass of a two-body system, and gain hands-on experience with physics concepts.

EIS00003

\$30.95

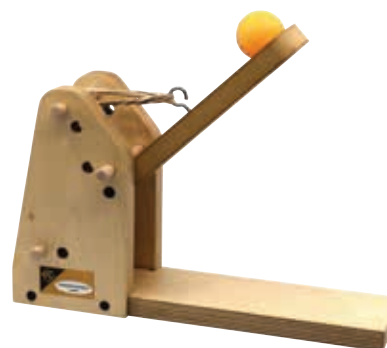

Garage Physics Soda Center of Mass Kit

This set comes with a balance board, lever arm, and instructions for assembly and activities. Use any full 2L soda bottle (sourced separately) to balance the board. Guide included for instructions.

EIS00008

\$22.95

Garage Physics Catapult Kit

Build your own catapult with this high-quality kit! Includes base, left and right sides, lever arm, 8 rubber bands, 4 wooden screws, 3 dowels, 1 c-shaped screw hook, 1 ping pong ball, and instructions for assembly and activities.

EIS00007

\$41.45

Garage Physics

Garage Physics High Power Catapult Kit

Build a high-powered catapult with this comprehensive kit! Includes sides and supports, top brace, firing arm, hardware (2 rubber bands, 3 dowels, 1 c-shaped screw hook, and 1 ping pong ball), and instructions for assembly and activities.

EIS00018

\$59.95

Garage Physics Projectile Motion Slingshot Kit

No tools required for this rubber-band slingshot. Using 2 rubber bands, this slingshot can launch a pingpong ball over 9 meters! Use additional rubber bands to launch projectiles even further.

EIS00014

\$82.45

Garage Physics MURLIN Trebuchet Kit

Learn about simple machines with this pulley-powered Multi-Radial Linear Node (MURLIN) trebuchet, which launches a ping pong ball 9 meters or more! Compare results against the traditional trebuchet (EIS00009).

EIS00015

\$99.95

Garage Physics Large Trebuchet Kit

Build your own trebuchet with this kit, including: base plate, A-frame supports, 4 wheels, beam arm, dowel, release pin, leather pouch, string, counterweight, counterweight pin, wooden pins and screws, ping pong ball, and instructions.

EIS00009

\$72.45

Garage Physics Ballista

Explore torsion springs, forces and projectile motion with this DIY ballista. No tools required for assembly, simply set up and fire ping pong balls over 9 meters! Experiment with various angles and lightweight projectiles.

EIS00016

\$99.95

Garage Physics Ball-Bearing Roller Coaster Kit

Use 6 meters of transparent tubing to create a ball-bearing roller coaster on any wall! Kit includes tubing, bearings, hooks, twist-ties, and rubbing alcohol pads. Experiment with designs for fast and slow roller coasters, and the maximum number of loop-the-loops.

EIS00017

\$69.95

TeacherGeek Makerspace Trolley

The ultimate STEM Toolbox for every activity, build or project. The TeacherGeek Trolley not only comes with more components than you can dream of, there are also over 40 project-based activities ready to go. Start with the build guide, move on to optional labs and additional challenges. The great thing is that all components are designed to work and fit together. Students will learn science and engineering concepts through experimentation, grow their understanding and evolve projects through the design & engineering process. Find a selection of the project ideas here!

STEAM Kits

Creator - Wind Powered Beast

Show students the uses for renewable wind energy, and to get them thinking about the logistics of engineering wind-powered machines.

HE1803 130 Pieces \$32.95

Creator - Solar Kit Car

This sun-powered vehicle has a wooden body and is a great way to start conversations with students on the topics of environmental technology.

HE1892 \$32.95

Creator - Infinity Mirror

This interactive product allows students to explore and learn about light, reflection, and spatial awareness by building a never-ending mirror!

HE1896 \$32.95

Construct-A-Clock

By building this clock using the easy-to-follow instructions, students can see how important gears are in the real world.

HE2140 21.6 x 20 x 3.8 cm \$33.95

STEM Explorers Domino Dash

Use the 45 dominoes and the 14 building components to create exciting run routes, and be inspired by the included STEM Challenge Cards.

LER9309 59 Pieces \$31.95

STEM Engineering & Design Building Set

Explore basic STEM concepts with the STEM Engineering & Design Set. Design and build playgrounds, or use the Activity Cards to complete design challenges!

LER2842 \$72.95

Variable Volume Micropipette

High-performance Variable Volume Micropipettes are ideal for any laboratory. Features include: soft & light weight operation; easy identification through colour coding; calibration confirmed to DIN 12650 & EN-ISO 8655 standards, ensuring high accuracy and precision. A calibration report is enclosed with every pipette. The body grip made of TPE prevents transfer of body heat to the pipette, resulting in high accuracy even with continuous use; design minimises hand and finger fatigue, reduces thumb stress; and the click stop digital system for easy volume setting. These pipettes are fully autoclavable with durable tip cones made of PVDF.

pH Universal Test Strips -1-14

This pack of 200 pH Universal Test Strips is used to determine the acidity or alkalinity of a solution from pH unit 1 to 14. These pH Indicators strips are stored in a handy plastic container for easy access and storage.

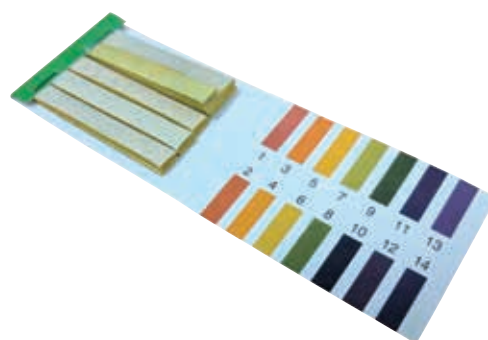

SER1307003	Pack of 200	\$10.25
-------------------	-------------	----------------

Indicator Paper - pH 1-14

This economy pack of universal indicator paper includes 100 pH 1-14 strips on a cardboard colour chart to provide a defined pH value. Simply dip the strip into the solution and match the colour to determine the pH.

SER1052386	Pack of 100	\$2.60
-------------------	-------------	---------------

Working with Chemicals

Chemicals & Reagents

We're proud to partner with Chem-Supply PTY Ltd, an Australian-owned manufacturer and supplier of chemical products.

These chemicals, reagents and ingredients have been supplied to customers all over Australia for 30 years. These are offered with quality assured Australian manufacturing, and a commitment to compliance and safety standards. Check out our extensive range of chemicals online. If you want to order a chemical you can't see online, talk to your Rep, or email the friendly Science team to request a special order!

At MTA, we pride ourselves on being a safe supplier of chemicals and potentially dangerous goods. In line with government & legal regulations, certain items are restricted. To purchase a restricted dangerous good, simply log in to your MTA account, submit your order and complete an End User Declaration via our new, easy online process. Receiving your much-needed chemicals is now easier than ever.

Weighing Trays

Plastic weighing trays for conveniently weighing out your chemicals.

Working with Chemicals

Glass Stirring Rods

These Glass Stirring Rods with rounded ends that measure 200 mm long and have a diameter of 7mm.

SER1099012 Pack of 10 **\$9.25**

Plastic Stirring Rods

These Plastic Stirring Rods have rounded ends, and measure 300 mm in length and 6 mm in diameter.

SER1290001 Pack of 5 **\$8.20**

Plastic Spotting Plate

This plastic Spotting Plate with 68 wells is designed for educational use.

SER1099028 10 **\$28.95**

Stainless Steel Spoon/Spade Spatulas

Stainless Steel Spatula with a spoon at one end and a spade at the other.

SER1010254K 150 mm - Pack of 10 **\$54.45**

SER1010254 150 mm - Each **\$5.95**

Long Stainless Steel Spoon/Spade Spatula

Stainless Steel Spatula - one end with a spoon and one end a spade.

SER1008116 180 mm **\$4.95**

Double-Ended Scoop Spatula

This double-ended scoop-style spatula with large scoop end measuring 14 mm wide, and small scoop end measuring 7 mm wide.

SER1020011 175 mm **\$4.95**

Polypropylene Spatulas

These dual-ended polypropylene spatulas are lightweight and durable, with one scoop end, and one spatula end with a knife edge,

SER063110 150 mm - Pack of 10 **\$20.95**

Nuffield Spatula - Stainless Steel

This durable stainless steel Nuffield-style spatula has one bent end measuring 7 mm wide, and one scoop-style end measuring 4 mm wide.

SER1010143 **\$5.95**

Stainless Steel Chattaway Spatula

Spatula Metal Chattaway with 7 mm wide ends.

SER1010255 150 mm **\$4.95**

SER1020033 125 mm **\$5.65**

Benchtop Electrical Equipment

Kitchen Style Compression Scale

A compression kitchen scale with weight dial up to 5kg.

SER1121001

\$64.95

Balance Digital

Digital Balance with LCD display 5000 x 1g. Powered by 2 x AA batteries, not included.

SER1052280 5000 x 1g

\$99.95

Analytical Balance

An electronic digital balance that can be used to weigh things accurately up to 200 g. It measures in 0.001 g increments - accurate and reliable!

SER1052946 200 x 0.001 g

\$399.95

Pioneer Precision Balance with Internal Calibration

The Ohaus PX4202 offers high accuracy and repeatability for education settings at a great price point. Features internal calibration, auto-tare, and USB and RS232 connectivity for easy communication.

SERPX4202 4200 x 0.01 g

\$1,999.95

Balance with Overload Protection

The Ohaus Compass CR series provides basic weighing functionality and competitive performance. Features such as the slim, stackable design; enlarged weighing platform; and 3x AA battery power makes this perfect for classroom use.

SERCR621 620 x 0.1g

\$199.95

Valor 7000 Multifunction Balance

The Ohaus Valor 7000 compact balance is reliable, accurate, and durable. It's a user-friendly balance with dual displays and touchless sensors.

OHAUV71P6T 6000 x 200 g

\$849.95

Scout Education

The Ohaus Scout Education balance is built to be robust and reliable. Features include faster stabilisation time, increased capacity, multiple connectivity options, an integrated overload protection system at 10X capacity, and a stackable design. Simple 4-button operation, plus a large backlit display.

SERSKX123 120 x 0.001 g

\$899.95

SERSKX622 620 x 0.01 g

\$959.95

SERSKX2202 2200 x 0.01 g

\$1,514.45

Benchtop Electrical Equipment

Economy Digital Balance

This digital balance is a perfect addition to any lab. High precision with sensor strain; round transparent draught-shield; high-contrast large backlit LCD; built-in corner spirit level; calibration weights included; 1 year warranty; power options include rechargeable battery or mains cable.

SER1052982 2000 x 0.01 g

\$432.95

Analytical Balance

Design features include user-selectable environmental filters and brightness settings, auto-tare, auto-dim, user-selectable span calibration points, software lockout and reset menu, user selectable communication settings and data print options, user-definable project and user IDs, software overload/underload indicator and stability indicator. Construction includes ABS top housing, removable stainless steel pan, removable glass draft-shield with sliding top door, integrated weigh-below-hook, security bracket and calibration lock.

OHAUPR423E 420 x 0.001 g

\$1,599.95

Analytical Balance with Internal Calibration

Design features include user-selectable environmental filters and brightness settings, auto-tare, auto-dim, user-selectable span calibration points, software lockout and reset menu, user selectable communication settings and data print options, user-definable project and user IDs, software overload/underload indicator and stability indicator. Construction includes ABS top housing, removable stainless steel pan, removable glass draft-shield with sliding top door, integrated weigh-below-hook, security bracket and calibration lock.

OHAUPR224 220 x 0.0001 g

\$2,499.95

Balance - Pioneer Precision with Internal Calibration

The Pioneer PX offers excellent accuracy, with the draft-shield and semi-automatic internal calibration. The PX is intuitively designed for intelligent operation with a second line display for additional information, and USB and RS232 connectivity for easy communication.

SERPX423 420 x 0.001 g

\$1,899.95

Benchtop Electrical Equipment

Hot Plate - Simmerstat

Simmerstat temperature control provides heat adjustment on a scale from 1-10. Maximum plate temperature is 450°C, evenly dispersed across the plate (200 x 180 mm area). Ideal for general laboratory use.

SERCH1920-001 Alloy **\$648.95**
 SERCH1921-001 PTFE **\$529.95**

Hot Plate - Thermostat Control

Thermostat temperature control provides heat adjustment from 50-320°C, and the plate maintains the set temperature with even dispersal. Plate size measures 200 x 180 mm.

SERCH1923-001 PTFE **\$587.95**

Hot Plate

Features a chemical-resistant ceramic top plate that is easy to clean and bi-metallic thermostat for reliable temperature control up to 500°C. Powerful heater reaches maximum temperature in only minutes. Pan Size: 10.2 x 10.2 cm.

SER1004600 **\$499.95**

Magnetic Stirrer

This magnetic stirrer features electronic speed control (150-1500 rpm), and can effectively stir solutions up to the viscosity of glycerine. Designed to resist corrosion, top plate is coated in epoxy.

SERCH2080-001 **\$499.95**

Hot Plate & Stirrer - Simmerstat Alloy

Stirring speed between 150-1200 rpm. Maximum plate surface temperature 420°C. Heat adjustable from 0-10 on scale. Plate size: 200 x 180 mm.

SERCH2090-001 **\$599.95**

Hot Plate & Stirrer - Thermostat Alloy

Thermostat heat control from 50-320°C. Stirring speed variable from 150-1200 RPM. Plate size: 200 x 180 mm.

SERCH2092-001 **\$699.95**

Hot Plate & Stirrer

Temperature range: ambient to 500°C, stirrer speed: 100 to 1200 rpm. Auto stirrer is activated by the weight of a beaker or flask, and will stop when the vessel is removed. Pan size: 10.2 x 10.2 cm.

SER1004603 **\$599.95**
